Pioneering aqueous dispersions & emulsions since 1974

Innovating dispersions for an ambitious world

For over 50 years, we've been helping manufacturers and formulators achieve their performance objectives with our leading range of proven aqueous dispersions.

Through our **innovation-first approach**, our specialists develop unique solutions engineered to meet evolving market needs and optimise product performance.

With operations spanning Europe, Asia Pacific, and the Americas, **Aquaspersions is a global leader in the manufacture and supply** of various aqueous additive dispersions and emulsions for many different market segments.

Product Portfolio

As innovators in aqueous dispersions and emulsions with deep market expertise, we develop a wide selection of solutions to serve an array of industries.

Industry Leading Dispersions and Emulsions

Aquaspersions is a global leader in water-based emulsions and dispersions, with deep market expertise spanning polymers, latex, rubber and gloves.

What Sets Us Apart

Product specialism in antioxidants, crosslinkers, curatives, and accelerators

Bespoke formulations for specific customer needs

Dedicated technical support and world-class R&D capability

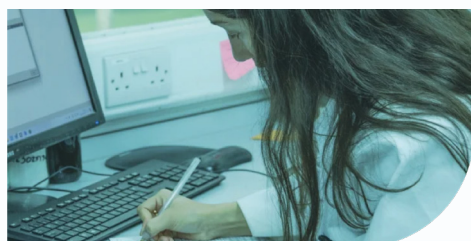

Global footprint coupled with standardised processes

Highly flexible production and supply chain operations

Regulation

Regulatory frameworks underpin each and every one of our processes, with a steadfast commitment to regulatory compliance. Through meticulous attention to detail and adherence to the most demanding industry benchmarks, we ensure each product meets regulatory standards.

Quality

Quality is built on consistency. We hold ourselves to the highest standards, because our customers depend on it. Across our global manufacturing facilities, the same rigorous quality, environmental, and safety standards apply.

Product Specialism

The world's leading chemical manufacturers rely on our dispersions and emulsions to bring their products to life. We formulate innovative solutions across a breadth of industries that enhance product performance.
